

Survey sent to ETSEIB and FNB students in May 2023

The drop in student attendance in UPC classrooms is obvious. In order to combat absenteeism in the classroom, it is necessary to know the reasons for which this absenteeism occurs and the associated needs of the student body that are not currently covered. The main objective of this survey is to carry out a causal analysis of absenteeism in the classroom in order to propose possible practical solutions to combat it.
